What you ought to know is which wheat makes the best flour, and why.

Winter wheat is put into the ground in the fall, grows a few inches, then gives up to the snow. When the snow melts it grows again, ripening in July. It matures slowly, is soft and very starchy.

Spring wheat is sown in late April or early May, and ripens in August. It matures rapidly and is therefore strong. It's a flinty, translucent wheat, rich in gluten and containing nearly twice as much real nutriment as the

Royal Household Flour

is made entirely from the hard, nutritious spring wheat, carefully selected from all the wheat of this kind grown in Canada.

Royal Household is fine, light and pure-milled by the most improved methods—in a mill as cleanly as your own kitchen.

Ask your grocer for Ogilvie's Royal Household—just enough to try. He may charge you a few cents more than you are used to paying, but you will forget that when you see the results in your bread and pastry.

Seems to be a perc of trouble in the police force. Rumor styre that two of "the finest" have realgned. Most people, we think, will agree that these continual changes are deploy-able. Belleville has a good force at present. Pay it could not be main-tained in it's present atrue.

The question, or think may pirity be arbed. But the members of the local police force receive sufficient representations of the pirity of the property of the common accepted as policemen. Common laborers in this city are pold \$1.50 per day, which, at six days per weck, works out at \$168 per year. Yet policemen are supposed to give their first year's services at \$450 per year. A ridiculously insidequate stipend, as remarked before.

Considering the responsibilities and duties which rest with the police force, may it not be fally saked, would it not be the part of wiedon, when good men are found, to pay them entough to retain their sen-ties. First Showing of Ladies'___

Spring Suits.

Interest in our Suit Section steadily increases. Every day Now Suits are being received, Though by no means complete, our showing is authorative of the season. Costs are the fashionable lengths, showing the straight, highest effect, as well as conservative styles; some are plain tailored while others are smartly trimmed. All have the plains good skits with and without folds and trimmed with buttons. Have the plain good skits with and without folds and trimmed with buttons when the straight plain is suited to the straight plain of the straight plain with the prices are exceedingly moderate.

Children's New Spring Jackets

The finest collection ever shown in Belleville

We cannot be too emphatic in praise of the wonderful completeness of our showing of Children's Cloth Jackets in the very smartest spring styles. Never before have such values been shown here or elsewhere. Materials are best imported serges, broadcloths, etc., in a full range of colors, including, navy, cardinal, scarlet, fawn, cream, etc , splendidly designed and finished. See the display in Centre Window, then come inside and let us show you the coats.

Two Mills Using Same Quality of Wheat May Not Produce Same Quality of Flour

The quality of flour largely depends on the milling. Two mills might grind wheat of the same quality and the product of one far outclass the other. It is not only the high quality of the hard wheat used, but also the superior milling facili-ties, that places "PURITY" flour so far above all others. Our milling plant at St. Boni-face, Manitoba, cost nearly \$1,000,000, and is one of the most perfectly equipped mills in the world. The wheat itself is subjected to the most won

derful system of cleaning and scouring, passing through twenty distinct machines. Fifty-five steel rollers, the largest in Canada, reduce the wheat into flour. Then it is purified and dressed by "bolting" it through silk aifters of fine mesh. Not a "branny" particle or speck of dust is ever found in "Purity" Flour.

You may have to pay a little more for Purity, but baking results, quality and quantity, prove it is worth far more than e slight difference.

We have two other modernly equipped mills at Brandon, Man., and Goderich, Ont.

The greatest asset you have is your strength. You can't afford to give out. It is a vital necessity that you have your nervous and muscular system in perfect order to withstand the constant wear and tear of your daily work.

The linest itssue builder and strength creator is Vinol, a Cod Liver preparation that has the greasy, anascating oil eliminated—only the valuable medicinal properties being combined with peptonate of iron. Its use wilk keep you in health and strength:

DEBILITY.

DEBILITY
results from a weakened occsition due to imperient digestion, lack of matrition or overwork. Vinol strengthens the
digestive organs, creates a
healthy oppetite and makes
new blood. You lose that istigues, weakeness and run down

Twenty-five years ago it was difficult to sell spring wheat flour for pastry at any price.

People didn't want it-they were using soft, winter wheat flour, and saw no reason for changing.

But hard wheat flour was persistently pushed and prejudice has been overcome, The women tried it, succeeded with it and appreciated it .- To-day hard wheat flour is the favorite for pastry as well as for bread.

The flour that is doing the most for the reputation of hard wheat flour is the brand known as

Ogilvie's Royal Household

It is hard wheat flour at its best-milled by modern methods, retaining all of the good of the wheat and none of the badit is without an equal for every kind of baking in which flour is used.

· Talk to your grocer about it -- if he ian't enthusiastic it's only because he isn't informed.

Pathetic Rubbers.

Kingston Standard: Rubbers Kingston Standard: Rubbers, as a rule, are not pathetic things to look at. But thered is a tiny pair in the city clerk's office, which have considerable pathes hang-log around them. They belong to the little child, who with its mother, was little child, who with its mother, was descrited by its father, while travely ling on a C. P. R. Aram between Teronto and Sharbot Lake, the night before last. The mother who received ussistance to Delieville, was so much disturbed that abe forgot the rubbers, and they were found in the Mayor's affice.

More than one best?

When you ask your grocer to send you the best flour, he sends you— his best. When you know the best flour and order by the name, the choice is not left to the grocer. Many grocers handle

Royal Household Flour

as their leader. They have found it the safest flour to recommend because its results are sure and its purity is unquestioned. It your grocer's best is not Royal Household, insist on his getting it for you. The benefit will be mutual.

Every "Caloric" lower burner-cup, besides being deep, is made with an air-mixer, which latter section has nickel-plated cover for air adjustment. Upper face of burner being corrugated causes a current of air to pass between

the corrugations and intermix with the gas. The air and gas are thus thoroughly gas. The air and gas are thus thoroughly blended before ignition takes place, which prevents the escape of gas. Every burner automatically drilled,

hence the uniform flame. The "Caloric" system stands for rigid gas economy, great velocity of flame, and safety of operation.

"force" is the sum of two characteristics that are united in no other hair remedy.

Herpicide has the ability to destroy the dandrulf microbe, and the QUALITY that delights those who wish a dainty hair dessing. It holds the secret of popularity and pleases every one who is discriminating enough to have a preference. It is not sticky, it will not stain the hair.

The curst we there of Herpicide is ametimes little short of may
